

■ Timothy Ali Smith Yusef

BRAND AND WEB DESIGNER

Denver, CO · studio@timothyali.com · timothyali.com · linkedin.com/in/timothyali

SUMMARY

Since 2019, I've designed identities, custom type, motion, and websites for startups and small teams. Recent work: PARC's rebrand and typeface, and agency client work at DOMOTO. Open to full-time roles, remote or in Denver.

EXPERIENCE

Digital Designer (Contract), DOMOTO

Mar 2026 – present

- Design brand, print, and digital work for agency clients: Fortune 500 companies, residential developments, finance and technology companies, and luxury brands.
- Design and build a multi-brand design-system platform in JavaScript that keeps each client's tokens, components, and brand assets in one place, readable by client teams and AI tools.

Cofounder, Brand and Art Direction, PARC (Pixel Ape Rowboat Club)

Nov 2021 – present

NFT club on the XRP Ledger.

- Led PARC's 2026 rebrand: a logo based on the apes' 5x5 pixel grid, a five-color palette, and PARC Pixel, a custom typeface in three weights with a monospaced version.
- Designed and built parcxrpl.com in the new identity and carried it to Discord, X, the Twitch show, merch, and a print and web logo library. Launched September 2026.

Founder and Designer, Timothy Ali Design Ltd.

Nov 2019 – present

Independent studio: identity, motion, and web design for startups and small businesses.

- FirstStrike Research (2025): turned the client's retro-print mood board into an italic wordmark with a halftone F, lockups, a color system, type, and guidelines.
- Jade Aesthetics (2025 – present): developed a medical spa's visual style from its existing logo, then designed and built its website, first in Framer and then in Next.js with a page for each treatment.

Brand Designer, First Ledger

Jan 2024 – Jan 2025

XRP Ledger trading platform. Platform scale, mid-2026: \$1.2B volume, 165K peak users, 2M+ wallets, 42K+ audience.

- Designed First Ledger's logo and brand guidelines for its Telegram bot, web app, and marketing. Created small-format lockups, a three-weight type system, and co-branding layouts for xrp.cafe and other partners.

Founding Designer (Cofounder), xrp.cafe

Jun 2021 – Jan 2024

NFT marketplace on the XRP Ledger. Platform scale, mid-2026: 32K followers, \$16.2M volume, 6.7M transactions.

- Cofounded xrp.cafe and designed its identity and coffee-mug mascot. Created motion graphics, more than ten social campaigns, and booth graphics and merch for Consensus, Permissionless, and ETH Denver.
- Designed campaign graphics for a VeSea charity event that raised \$33K for St. Jude.

PROJECTS

- Do Androids Dream? (2023). A speculative title sequence in After Effects for a class at RMCAD.
- Toolbox (2026). A desktop app that packages logos, exports palettes, and makes type specimens.

SKILLS

Brand and motion: identity systems, logos and lockups, typography and type design, art direction, campaigns, guidelines, print; After Effects animation for social, launches, and title sequences.

Web: Figma, HTML and CSS, TypeScript, SvelteKit, Next.js, Tailwind, Claude Code.

Tools: Illustrator, After Effects, Photoshop, InDesign, Figma, Framer.

Languages: English and Spanish, both native.

EDUCATION

BFA, Graphic Design, Rocky Mountain College of Art + Design, Lakewood, CO

Oct 2025
